

The **T O P 5** WAYS to SIMPLIFY VERIFICATION

Here are the top 5 ways to serve your students and make the verification process (dare we say) – simple.

- 1 COMMUNICATION** - Meet students where they are. Text communication has proven to be the best way to drive responses and action.
- 2 MOBILE** - 86% of students own a smartphone. Mobile accessible portals and uploads are the key to getting the right documents quickly.
- 3 E-SIGNATURE** - Eliminate paper forever! And never have to mention the dreaded “f-word” to students again – fax!
- 4 INSIGHT** - Use dashboards and reports to understand where your students are getting stuck and need help.
- 5 AUTOMATE DOCUMENT REVIEW** - Use verification check, optical character recognition and ISIR comparison software instead of manual processes to give you more time to do what you love – counseling students!

EP'S VERIFICATION PLATFORM - SOFTWARE THAT SIMPLIFIES

- Easy to buy - getting support for a new tool is hard - we will partner with you to get you exactly what you need, when you need it to make the buying process easy as pie. That and you'll only pay one flat fee - we're not in to charging extra fees for the things you need!
- Easy to implement - get going in less than 30 days (woot woot)!
- Easy to use - the software makes the entire verification process super simple, plus we will train you and your team so you know exactly what you're doing. ;)
- Easy access to the EP support team - We're here for you - it's so simple we doubt that you'll need us at all, but if you do we have your back!

What's better than awesome? Simple!

WHO WE ARE

We are a technology company with deep financial aid domain expertise! Our team includes the brightest minds in technology and hails from higher education. We are a dedicated team on a mission to provide a simple, yet revolutionary platform that eases stressed institutions and gives students a stellar experience.

WHAT WE DO

We are leading the charge to help higher education institutions simplify the enrollment and financial aid process. Using a cloud-based platform, our easy to use enrollment, financial aid and verification tools help you automate the processes, giving you more time to focus on students.
